

ABOUT K.TEK SYSTEMS

Founded in 1993, K.Tek Systems, Inc. is a leading global provider of full-service, Web based solutions including custom web design and development, hosting and Internet application management. We offer complete business solutions including strategic consulting, corporate Intranet and Extranet development, business systems and database application integration, custom software/Mobile Smartphone application development, Cloud services and computing, Search Engine Marketing, e-commerce solutions, as well as content management solutions.

K.Tek Systems has served thousands of customers internationally, and remains steadfast in its commitment to create meaningful relationships by understanding clients' unique business objectives, identifying their critical success factors and yielding total success by increasing growth, productivity and profitability. K.Tek Systems understands the dynamics of business and technology and prides itself on 98% client retention due to consistently delivering a high ROI by helping our clients strategically position themselves competitively in today's market.

Our team employs software engineers, Microsoft certified solution partners, database architects, and skilled project managers – the experts you need to ensure quick response time and complete business solutions.

Our goal is to provide the services needed to support your organization's total technology infrastructure while maintaining a focus on our number one priority – our client's success. We are driven to always be working harder and smarter and to provide complete accountability. These are the core values that set us apart from others in our industry.

Together, K.Tek Systems' continued proven leadership and expertise leverages the fusion of business and technology to provide thriving Internet and Web based technology solutions for any organization.

TEAM STRATEGY

It's all about teamwork.

K.Tek employs a radically simple approach to managing the needs of our clients. Always work as a team to get the job done. We employ our professional skills, knowledge and years of business acumen to provide an integrated and experienced team approach to every client project. Our team members bring to the table a diverse perspective and distinctive skill set, ensuring that our client's unique business objectives are being met and consistently yield in increased growth, productivity, and profitability.

Every project, no matter how large or small, is important to us. This is why we're fanatical about bringing together the industry's most talented team of developers, designers, project managers, and search engine marketing specialists to provide you with outstanding results propelling your business's overall success.

CLIENT PROMISE

Since its founding in 1993, K.Tek Systems Inc. has been solely owned and operated by its founder and CEO, Kimberly During. Throughout this period, K.Tek Systems has continued to grow our client base by remaining steadfast in our commitment to create meaningful relationships by understanding each of our client's unique business objectives. We have made it a point to understand that no two businesses are exactly alike and that your company is distinctly unique. K.Tek Systems takes into consideration emerging trends in technology and leverages that to provide simple and smart, business solutions for clients.

The team at K.Tek Systems, Inc. takes your business *personally*. We understand that advances in Web technologies have improved and accelerated the means whereby people do business, yet they have not replaced business fundamentals. Our clients are interested in success, not gadgets.

It is for this reason that we pledge our commitment to you and promise to stay true to our "small-town" sensibilities and focus on creating lasting, personal relationships with our clients. Your organization's reputation, time and money are at stake so we insist on providing detail oriented, turn-key budget conscious solutions. Your success is dependent upon partnering with a business solution provider that can ensure that your technology applications solutions are worthy of the company they represent for years to come. It is for this reason that we aspire to exceed expectations while maintaining a professional work environment built on mutual respect with all of our clients.
